

Accurate, Easy Data Entry

- ***Each item has a unique bar code — XTRAX knows exactly which item is being shipped or received***
- ***Scanning bar codes is a quick, accurate, and easy means of data entry***
- ***The hand-held scanner is highly portable and easy-to-use***

Bar Code Support is fully integrated into XTRAX

- ***Scans are uploaded into XTRAX at the push of a button, updating inventory and producing shipping and receiving reports***
- ***Scan order (crate first, then its contents) determines crating. Reports, such as packing lists, accurately reflect a crate's contents***
- ***The hand-held scanner quickly records the movement of an item to a new crate or a new warehouse location***

Bar Code Labels are Durable

- ***The workstation bar code printer produces laminated bar code labels (1/2" and 1") with excellent durability and adhesion***
- ***The sharable network bar code printer quickly produces 1" bar code labels on sturdy polypro stock***
