

A New Way of Doing Business

- *Real-time item availability, event review and item requests over the Internet...*
- *Accurate, current information for your clients wherever Internet access is available...*
- *A new level of customer service, a discernable difference over the competitors...*

New Revenue Opportunities

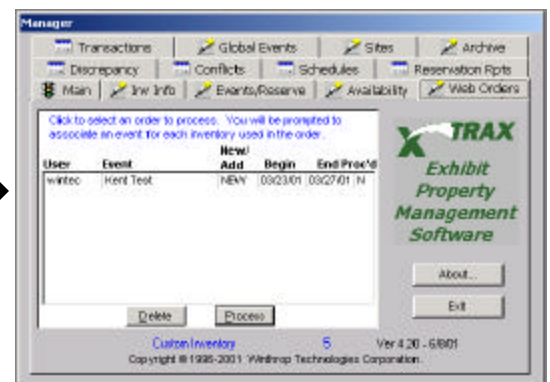

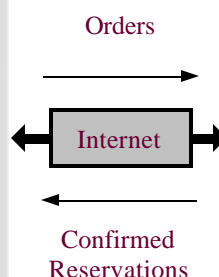

- *Attract savvy and/or high tech customers who expect technology-based solutions...*
- *Huge potential for rental programs, customers request items directly via the web...*

Fully Integrated with *XTRAX*

- *Customers see same information from same database, information is always accurate and up-to-date...*
- *WEBView orders are quickly processed without any retyping...*
- *Full control over which inventories are available on the web, username and password protection, "view-only" or "allow-ordering" access...*
